Would you please consider the listing commented, would you	plete. I f no Follow-on is to be indicate what disposition is to
be made of the property	-
REPLY	9 March 1966

The property listing appears to be complete. Nothing has been finalized on a follow-on contract; however, discussions are continuing. There should be a definite decision by the end of March and at that time, a letter regarding disposition of the property will be forwarded to you in the event a contract is not awarded.

Reference is made to the reply to your speed letter 954-277, dated 8 January 1966, concerning disposition of the HTA-5 Film Processor. This is the only item which can be declared excess at this time.
